

## Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education ([www.cool4ed.org](http://www.cool4ed.org)). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextbooks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

## Overall Comments

If you were to recommend this textbook to colleagues, what merits of the textbook would you highlight?

- Very clearly written technical material.
- Numerous examples are provided to illustrate the theory.
- Textbook is written in a style that enhances learning. However, I am not sure this book can be covered in one semester as it is rather long.

What areas of this textbook require improvement in order for it to be used in your courses?

- Perhaps reducing the size of the textbook and some areas covered in the textbook.
