

Faculty Review of Open eTextbooks

The [California Open Educational Resources Council](http://www.cool4ed.org) has designed and implemented a faculty review process of the free and open etextbooks showcased within the California Open Online Library for Education (www.cool4ed.org). Faculty from the California Community Colleges, the California State University, and the University of California were invited to review the selected free and open etextbooks using a rubric. Faculty received a stipend for their efforts and funding was provided by the State of California, the William and Flora Hewlett Foundation, and the Bill and Melinda Gates Foundation.

- Key terms are listed at the top of the page under the Key Points which you can easily refer back to. Throughout the text, key terms have links that takes you to a separate page to view the definition. This is great but ideally a text box that pops up would work better so one does not have to hit the back button to go back to the chapter. What is also great is that instructors can assign specific sections of each chapter for student reading in addition to chapter quizzes.
